Saud Bin Samhan

AI Developer

Riyadh, SA | +966 50 233 7164 | saudbinsmhan@gmail.com | Saud Samhan | github

PROFILE

Computer Science student at IMSIU and current **Prompt Engineer Intern at Velents.ai**, a Saudi AI company specializing in automated hiring and workforce automation. I build end-to-end AI solutions, from prompt engineering and ML pipelines to full-stack deployment, using Python, PyTorch/TensorFlow, FastAPI, and React, with hands-on experience in AI development and computer vision.

EDUCATION

Bachelor of **Computer Science** 2022 – 2026

Imam Mohammad Ibn Saud Islamic University (IMSIU)

INTERNSHIP EXPERIENCE

Prompt Engineer Intern — Velents.ai · Riyadh, SA Jan 2026 – Present

- Built and deployed 10+ customized AI agents on Velents platform across multiple client use cases; work documented and shared with company partners.
- Assigned a direct task by the Sales Manager to build a new agent — delivered successfully and received positive feedback.
- Designed and optimized prompts for Velents AI products: AI Recruiter, Agent.sa (voice/WhatsApp), Velents Wisdom (RAG), and SAFHA document analysis.
- Improved cross-team workflow using Excel-based agent tracking and documentation, enhancing coordination with clients and partners.

PROJECTS

PlanMate AI — AI-Powered Learning Plan Generator — Tuwaiq Academy · Groq Capstone Sep 2025

- Integrated Groq Llama-3.1-8B with FastAPI backend to generate JSON-structured learning paths; built responsive web UI (HTML/CSS/JS).

SILA Arabic Sign Language Recognition System — Samsung Innovation Campus · AI Capstone Sep 2025

- Trained PyTorch CNN on ~49K images achieving 97.4% accuracy; deployed FastAPI inference service with real-time web UI; led 6-member team with Agile.

HopeHub Charity Management Platform — Misk Skills · Backend Capstone Jul 2025

- Built full-stack Flask + Supabase platform with JWT auth, 8-table schema, 15 REST APIs, and responsive admin dashboard with payment integration.

TRAINING PROGRAMS

- **Velents.ai** Prompt Engineering & AI Development Jan 2026 – Present
- **Samsung & Misk Skills** Samsung Innovation Campus AI and Data Science July 2025 – Sept 2025
- **Misk Skills** Immersive Backend Developer Program June 2025 – July 2025
- **Tuwaiq Academy** Introduction to AI Engineering with Groq September 2025
- **Ministry of Communications and IT** Data Visualization with Power BI Augst 2025
- **Tuwaiq Academy** Power BI 101 102 103 Augst 2025

Skills

- **AI & Prompting:** Prompt Engineering, AI Agents, LLMs (Groq/Llama), PyTorch, TensorFlow, Keras, Scikit-learn, Pandas, NumPy.
- **Web & Backend:** FastAPI, Flask, React, Node.js, RESTful APIs, Supabase.
- **Tools:** Python, Java, SQL, Git, GitHub, Power BI, VS Code, Cursor.
- **Soft Skills:** Adaptability and fast learning Analytical Thinking, Self-Motivation, Problem-Solving, Leadership.
- **Languages:** Arabic (Native), English (Professional).
